Brigadier General James W. Shufelt, USA
Acting Assistant Chief of Staff for Intelligence
Department of the Army
Washington, D. C. 20310

Dear Jim:

Please express my appreciation for a job well done to each Army participant in the recently completed Future SIGINT Capabilities Study (FSCS), and for their contribution to our understanding of future intelligence needs. The FSCS will provide a valuable guideline for an investment strategy that will help ensure that the United States SIGINT System will remain viable through the year 2000. It will also impact on the production of intelligence information for national decisionmakers and military commanders. Those Army persons named in the enclosed listing may well be proud of their contribution to this Herculean effort.

While it is somewhat unfair to single out individuals for special recognition when so many made significant contributions to specific sections, I wish to cite Dr. Glenn Priddy and Mr. Philip E. Lavigne for their exceptional contribution to the entire Study.

Dr. Priddy served on the Tiger Team from December 1984 through April 1985. The Tiger Team represented and reported directly to the DCI and provided high-level guidance to the Study.

Mr. Lavigne served on the Study Executive Panel from January 1984 through May 1985. The Executive Panel was chaired by the Chairman, SIGINT Committee and provided overall guidance to the Study.

Please convey my personal commendation to these officers for their exceptional contributions.

Sincerely,

7s/ William J. Casey

William J. Casey
